PROFILE SUMMARY

Growth-oriented, reliable **Full-Stack Developer** with **4+ years of professional experience** building, deploying, and maintaining scalable web applications and distributed backend systems. Deep expertise in **TypeScript, React, Next.js, Node.js, NestJS, and PostgreSQL**, with hands-on experience in event-driven architectures, microservices, REST API design, and cloud deployments on AWS. Proven track record delivering mission-critical systems in regulated banking environments: led frontend engineering for real-time operations dashboards at Wegagen Bank serving **3.6M+ customers**, built remote GenAI platform features at **IDEEZA**, and engineered an event-driven SMS notification pipeline processing **800+ messages/sec** using Apache Kafka, Debezium CDC, and Docker. Formally commended by executive leadership for engineering excellence, self-directed execution, clean code documentation, and reliability in remote environments.

TECHNICAL SKILLS

Front-End: React.js, Next.js (App Router / SSR), TypeScript, JavaScript (ES6+), Tailwind CSS, Shadcn / Radix UI, Redux Toolkit, TanStack Query, Zustand, HTML5, CSS3

Back-End: Node.js, NestJS, Express.js, GraphQL, RESTful API Design & Integration, Microservices, Background Jobs, Webhooks (HMAC-SHA256)

Databases & ORM: PostgreSQL, MongoDB, MySQL, Oracle Database, Prisma ORM, Mongoose, Supabase

Architecture & Messaging: Apache Kafka, Debezium CDC, Event-Driven Architecture, Microservices, Message Queues, Docker & Containerization, SMPP Gateways

Workflow & DevOps: Git, GitHub Actions (CI/CD Pipelines), AWS, Serverless Framework, Vercel, Postman, Jira, Figma, Webpack

Testing & Security: Jest, React Testing Library, Cypress (E2E), RBAC, NextAuth & JWT, XSS/CSRF Prevention, Input Validation, Secure Token Handling

PROFESSIONAL EXPERIENCE

IDEEZA — Frontend Developer

Jun 2025 – Aug 2026 | Remote

- Architected and delivered high-performance frontend features for a live Generative AI platform using **React.js, Next.js 14, and TypeScript**, optimizing rendering strategies to achieve fast load times on complex, data-heavy views.
 - Built reusable, accessible UI component library using **Shadcn and Tailwind CSS**, reducing UI development turnaround time by **~30%** across feature sprints.
 - Implemented performance optimizations including code splitting, lazy loading, and efficient server state caching with **React Query**, boosting perceived application speed.
 - Integrated RESTful APIs with full TypeScript type safety across all data contracts, eliminating a category of runtime type errors.
 - Contributed to AI-driven blueprint generation features and NFT minting workflows, taking full ownership in a fast-paced remote startup environment.
- (Tech Stack: React.js, Next.js 14, Tailwind CSS, Shadcn, TypeScript, React Query, NestJS, Node.js, PostgreSQL, MongoDB)

Wegagen Bank — Full-Stack Developer

Jun 2022 – Nov 2025 | Addis Ababa, Ethiopia

- Led development of a real-time banking operations dashboard serving **3.6M+ customers, 5,400+ employees, and 441+ branches** using **React, Next.js, TypeScript, and PostgreSQL**.
 - Spearheaded development of the **FX Queue Management System**, officially recognized by **CEO Dr. Aklilu Wubet** for exceptional contributions to operational efficiency and compliance.
 - Contributed to a Customer Onboarding & KYC platform, developing registration workflows, profile management interfaces, authentication flows, and compliance-driven onboarding processes.
 - Implemented robust enterprise RBAC using **NextAuth and JWT** authentication to secure banking applications and sensitive financial data.
 - Enforced full-stack security best practices: input validation, sanitization against XSS/CSRF, secure token handling, SQLi prevention, and REST API security.
 - Designed and deployed a high-throughput event-driven SMS notification pipeline delivering **800+ messages/sec** using **Apache Kafka, Debezium CDC** (from Oracle DB), and containerized **Node.js microservices** orchestrated via Docker to SMPP/Kannel telecom gateways.
- (Tech Stack: React, Next.js, Tailwind CSS, TypeScript, NestJS, Node.js, Apache Kafka, Debezium CDC, PostgreSQL, Oracle DB, Docker)

FEATURED FULL-STACK PROJECTS

ShopLinker — Full-Stack E-Commerce Platform with Payment Integration [\[Live\]](#)

Next.js 16 · Supabase · PostgreSQL · Vercel

- Full-stack e-commerce platform with Next.js 16 App Router (SSR), Supabase Auth with session handling, category filtering, and persistent cart with real-time stock reconciliation.
- Integrated server-side StarPay payments with **cryptographic HMAC-SHA256 webhook signature verification** and enforced PostgreSQL Row-Level Security (RLS) across all tables.

(Tech Stack: Next.js, TypeScript, Supabase, TanStack Query, Zustand, Tailwind CSS, Formik, Yup, Axios, Vercel)

Banking Daily Operations Report Dashboard [\[Enterprise\]](#)

React · TypeScript · NestJS · PostgreSQL · Oracle

- Enterprise real-time operations intelligence dashboard serving 3.6M+ customers across 441+ branches of Wegagen Bank. Granular metrics for Retail, Finance, Credit disbursements, and Digital transactions (USSD, Mobile, ATM, POS).

(Tech Stack: React.js, TypeScript, Redux, Chart.js, D3.js, Material UI, NestJS, PostgreSQL, Oracle DB)

Customer Onboarding & KYC Platform — Wegagen Bank [\[Live\]](#)

React · TypeScript · PostgreSQL · Node.js

- Built secure onboarding and KYC verification workflows for digital banking, including account registration, identity document capture, and RBAC authentication integrated with core banking services.

(Tech Stack: React.js, TypeScript, Tailwind, Shadcn, PostgreSQL, Express.js, Node.js)

Vacancy Platform — Job Listings & Applications — Wegagen Bank [\[Live\]](#)

Next.js · TypeScript · PostgreSQL · Radix UI

- Full-stack recruitment platform with role-based candidate and admin dashboards. Built with Next.js, JWT authentication, and reusable Radix UI primitives handling vacancy posting and application tracking.

(Tech Stack: Next.js, TypeScript, Tailwind, PostgreSQL, JWT, Radix UI)

EDUCATION

BSc in Information Technology — Hawassa University, Ethiopia

Graduated 2022

Coursework: Software Engineering, Database Systems (RDBMS), Web Architecture, Data Structures & Algorithms, Object-Oriented Programming, Computer Networks & Information Security.

PROFESSIONAL & REMOTE WORK COMPETENCIES

- **Autonomous Task Management:** Proven ability to independently break down high-level business goals, organize sprint workflows, and deliver quality code within agreed timelines without micro-management.
- **Clear & Proactive Communication:** Comfortable communicating dependencies, blocker flags, and technical trade-offs across distributed teams; active contributor in code reviews and architectural planning.
- **Problem Ownership:** Approaches issues logically, diagnoses root causes across frontend, APIs, and databases, and drives bugs through resolution, as demonstrated in mission-critical banking platforms.
- **Adaptability & Continuous Learning:** Highly adaptable to new frameworks, libraries, and changing requirements (e.g., Next.js 16 App Router, Generative AI frontend workflows, event-driven streaming with Kafka).

Chief Executive Officer

Date: November 27, 2025

**To: - Anduamlak Alehegne Alemu
(Software Engineer II)**

Subject: Recognition of Your Exceptional Efforts on the FX Queue Management System implementation.

I would like to extend my sincere appreciation for your exceptional contribution to the successful design, development, and deployment of the FX Queue Management System. Your dedication, professionalism, and technical competence played a key role in the successful completion of this important initiative.

Your work throughout the project lifecycle from requirements gathering to final deployment was marked by strong attention to detail, creativity, and a deep commitment to quality. The system delivered is a testament to your hard work and contributes meaningfully to strengthening our overall operational efficiency.

Thank you for your contribution, dedication, and positive impact on this project. Your efforts have set a strong standard of excellence for our team and the bank.

Regards

**Akilu Wubet (PhD)
Chief Executive Officer**
